

MOA #1773 Feed Ingredient Catalogue, part III , chapter 9

- This new requirement is effective from 1/1/2013
- Any animal feed ingredients not included in below catalogue shall be subject to the science evaluation by the Ministry of Agriculture
- Mandatory Chinese label requirements

Animal products and by-products		
No.	Product Name	Mandatory Chinese label requirements
9.1	Animal fats and oils products	
9.1.1	Oil	Crude Fat Unsaponifiable matter Acid value Malondialdehyde
9.1.2	Greaves (Cake)	Crude Protein Crude Fat
9.2	Insect processed products	
9.2.1	The silkworm chrysalis (powder)	Crude Protein Crude Fat Acid value
9.2.2	Silkworm chrysalis meal defatted silkworm chrysalis (powder)	Crude Protein Crude Fat Acid value
9.2.3	Bee Pollen	Total sugar
9.2.4	Propolis	Total sugar
9.2.5	Beeswax	Crude Protein
9.2.6	Honey	Total sugar
9.2.7	The insects (powder)	Crude Protein Crude Fat Acid value
9.2.8	Skim insect powder	Crude Protein Crude Fat
9.3	Offal, hooves, horns, claws, feathers and its processed products	
9.3.1	The intestine membrane protein powder	Crude Protein Crude Ash Salt
9.3.2	Pluck	Crude Protein Moisture (For Pet Food only)
9.3.3	Animal offal powder	Crude Protein Crude Fat Pepsin digestibility
9.3.4	Animal organs	(For Pet Food only)

9.3.5	Animal hydrolyzate	Crude Protein PH value Moisture (For Pet Food only)
9.3.6	Expanded feather meal	Crude Protein Crude Ash Pepsin digestibility
9.3.7	Leather	Crude Protein Moisture (For Pet Food only)
9.3.8	Talon skin powder	Crude Protein Crude Fat Crude Ash
9.3.9	Hydrolysis hoof angle powder	Crude Protein Pepsin digestibility
9.3.10	The hydrolyzed animal hair powder	Crude Protein Crude Ash Pepsin digestibility
9.3.11	Hydrolyzed feather meal	Crude Protein Crude Ash Pepsin digestibility
9.4	Eggs and processed products	
9.4.1	Egg powder	Crude Protein Crude Ash
9.4.2	Egg yolk powder	Crude Protein Crude Fat
9.4.3	Eggshell powder	Crude Ash Calcium
9.4.4	Egg white powder	Crude Protein
9.5	Earthworms and processed products	
9.5.1	Earthworm powder	Crude Protein Crude Ash
9.6	Meat, Bone and processed products	
9.6.1	Bone	Calcium Ash Moisture (For Pet Food only)
9.6.2	Bone Meal (Granular)	Crude Ash Calcium Phosphorus
9.6.3	Bone glue	Gel strength Blaine viscosity Crude Ash
9.6.4	Marrow	Crude Protein Crude Fat Moisture (For Pet Food only)
9.6.5	Gelatin	Gel strength Blaine viscosity Crude Ash

9.6.6	Meat	Crude Protein Crude Fat Moisture (For Pet Food only)
9.6.7	Meat Meal	Crude Protein Crude Fat Phosphorus Pepsin digestibility Acid value
9.6.8	Meat & Bone Meal(Bovine & poultry)	Crude Protein Crude Fat Phosphorus Pepsin digestibility Acid value
9.6.9	Acidification bone meal (Bone calcium hydrogen phosphate)	Crude Ash Phosphorus Calcium
9.6.10	Unglued bone meal	Crude Ash Phosphorus Calcium
9.7	Blood products	
9.7.1	Spray-dried plasma protein powder	Crude Protein Immunoglobulin(IgG or IgY)
9.7.2	Spray drying blood cells	Crude Protein
9.7.3	Hydrolysis blood meal	Crude Protein Pepsin digestibility
9.7.4	Hydrolysis blood globulin powder	Crude Protein Pepsin digestibility
9.7.5	Hydrolyzed globin powder	Crude Protein L-lysine
9.7.6	Blood meal	Crude Protein
9.7.7	Heme protein powder	Crude Protein Porphyrin iron (heme iron)
